

PLASMA-7

The Plasma-7 pickup is very responsive to the picking attack and allows for some of the best distortion available on this planet. Now if you want a pickup to play some jazz, this is not your pickup. If you want the world to hear your sound and then grab some gloves, install the Plasma-7 and let 'er rip. Plasma-7 pickups are carefully made with American made plain enamel copper wire; Ceramic bar type magnets. The coils are wax potted for stabilization to insure the complete, clean reproduction of sound. Equipped with 4 wire leads that give the player endless tonal possibilities.
